

Barrier Systems

Water Fillable Barriers

Designed to be sturdy and durable, our water fillable barriers feature a hook and eye system, delivering a simple and rapid installation.

Dimensions: H560mm, W1130mm, D400mm

Weight: Empty 5.5kg, Filled 60kg

Strong Wall Barriers

A self-weighted plastic safety barrier, ideal for using in high risk environments. Suitable for winds up to 32mph.

Dimensions: H1000mm, W1025mm, D555mm

Weight: 22kg

Mass Barrier

Heavy duty traffic/pedestrian segregation barrier that self-stabilises when an errant vehicle hits the system. Can be fitted with a variety of top units.

Dimensions: H420mm, W1500mm, D500mm

Weight: 60kg

Self-Weighted Block

More durable than bulk timbers self-weighted blocks are easy to assemble and can be reused and moved easily. Posts and boards can be added to create a higher barrier.

Dimensions: H300mm, W1000mm, D300mm

Weight: 40kg

Pedestrian Barriers

Featuring a hook and eye system the hi-vis Chapter 8 barrier also features rotatable feet to allow for easy storage.

Dimensions: H1000mm, W2000mm, D50mm

Weight: 11kg

Crowd Control Barriers

These fixed leg barriers are offered finished in galvanised steel and can be hooked together and easily deal with uneven terrain.

Dimensions: H1100mm, W2300mm

Weight: 14kg

Heras Temporary Fencing

Made from galvanised steel the panels include a mesh infill to provide more stability. Thermoplastic temporary fencing feet are used, which provide a stable base for your structure.

Dimensions: H2045mm, W3450mm

Weight: 10kg
